contactless
BY omni

Contactless by Omni:

Touch-free. Virtual. Payments.

Modernize your business overnight.

Contactless by Omni is an all-in-one solution providing you with the ability to process safe, touch-free and virtual payments.

Take payments the way your customers want to pay, without having to purchase multiple solutions and without having to do any manual configuration.

- Touch-free virtual and in-person payments
- Instant setup

- All-in-one reporting
- Full marketplace of best-in-class applications

More Ways to Process

**Easy Online Shopping Cart**

Text2Pay

Virtual Portal for Keyed Payments

Touch-free Mobile and Countertop Terminals

Email Invoicing

Instant Onboarding

One-Click Easy Online Shopping Cart

Create a shopping cart to sell your products online with 1-click. No configuration or technical skills needed.

Virtual portal for keying in phone orders

Take orders from your customers and obtain payments over the phone for curbside pickup or delivery.

Email Invoicing

Send professional electronic invoices to your customers via email or text message. Customize your invoices to include custom fields and match your business branding.

Easy Onboarding

Contactless by Omni is implemented as a single solution, resulting in easy onboarding and seamless activation as easy as 1-2-3.

1. Apply in less than 20 minutes
2. Access your Contactless tools
3. Start accepting payments

Text2Pay

Give your customers the option to pay for their purchase via text message. Send a payment link via text message and enjoy 2-way communication with your customers.

Touch-free mobile and countertop terminal devices

Your customers no longer have to hand you their physical credit card when paying. They can simply tap their card on the reader which is significantly cleaner and safer.

Omni-channel payments report

Payment data across all of the contactless solutions is found on a single dashboard making reconciliation a breeze.
